VOL 5 NO 03

March 14, 1989

Just as we had completed last, months newsletter. Guess what???? S.N.U.G. sent us some important, but late information dated last month the 27th. It is an update, to inform us on it's progress in general. 1ST a charter has been approved by the Secretary of State of Florida on 12-27-1988. And as 12-31-1988 all funds received are deposited in a checking account.

The Library Committed has made up a format to work the PDSL. And have set up Librarians, they are Head Librarian....Frank Davis Asst Head.....Tim Ward

They are assessing what programs
qualify for Public Domain and do
not know an accurate number is at
this time available. A committee
on Publication is being selected
and also a person in each Users-
Group needs to be elected to act
as directed by their User Group.
Plus also be a contact between,
us and S.N.U.G. .As a result of,
their meeting a OFFICIAL Ballot,
from snug has been sent to us to
vote upon. I am sending a ballot
to each person in the club with
this newsletter and the ballots,
will be counted on 14th of March
our first meeting of March. Send
these ballots back to the address
listed on the newsletter before,
the 14th of March or come to our
meeting and give your input.

This is an important step IN
which to secure our survival and
keep knowledge alive and help our
fellow computerists SUPPORT SNUG
Will YOU!!??

One of the parts of this hobby
that is enjoyable is the M'lers.
One of the people that prompted,
us here at KATS was "Phoenix" --
Pete Fischer with his help out of
our shell and now "trade" M'lers
our list include:

Each of these groups views the
world of Computing in different,
and complex ways. Each member is
the key to this different complex
view, but our common number is a
computer, or should I say a person
who invented our type or style of
computing, Sir Clive Sinclair.

Here is the List of Offices and,
persons interested in the said,
position: CHECK ONLY ONE IN EACH
OFFICE:

OFFICE OF THE PRESIDENT:
 JAMES P. CURRY
 JOHN KERLY
 GARY L. LESSENBERRY
 MEL NATHANSON
 D.R. QUIATT
OFFICE OF 1ST VICE PRESIDENT
 ALEX F. BURR
 DAVID HARTMAN
 TED HECKMAN
 PAUL HOLMGREN
 DONALD LAMBERT
OFFICE OF 2ND VICE PRESIDENT
 FRANK DAVIS
 RUTH FEGLY
 LAURIE FUTRELL
 FRANK OROSZ
 BASIL VENTWORTH
OFFICE OF SECRETARY
 MIKE BOVERS
 AUDREY CURNUTT
 ANDREW HRADESKY
 GARY LESSENBERRY
 WILLIAM WOOD
OFFICE OF TREASURER
 JOHN CUSHMAN
 CHRIS CRAWFORD
 KEN FRANKEL
 ROGER PHELPS
 TIM STODDARD

REMEMBER TO VOTE FOR ONLY ONE OF
EACH PER OFFICE ITS UP TO YOU...

Now the next step is to make a
copy of the ballot, and mark (X)
the person in that office. Next,
send it to me or better yet bring
it to the meeting on 14 March 89
at the courthouse. Where we will
tabulate them, and then mark the
official ballot. Next month will
have the election results in it.

Come to the meeting and we will
have an election party!!!!!!!

Dear Bill,

Hope this finds you well as
you can see this is the way KATS
uses the JLD system. A disk will
be forth comming with a full NL
on it.

The person to contact with the
JLD equipment is as follows:

Al Schremmer
P.O. Box 780732
Wichita, Kansas
67278-4856

Please address the return disk
to him. We will try to give you,
every help to get this across.
The program we are Using on this
newsletter is Stan Lemke's DTP,
Professional for the A&J MICRO--
DRIVE. Other methods we use are
TASWORD II, also DTP PLUS. Others
will be given you in the future,
as we make use of them.

The next item on my agenda is
a Disk or Cassette that is from,
your PDL. I have seen several
Items in you SintLink. Do I first
request a list and then order. Or
just tell you outright or trade?
The Vol 8 NUM 1 Jan 1989 Page #3
said that Bob Kuster Phone 408-
842-3477 has JLD Disks. Or maybe
on page 1 same issue a letter of
a library loan by Donald Lambert
and American Micro Connection.
Please give us some direction in
which to move. Lookin forward to
seeing wheather this realy works
or not. Thanks for the exchange.
it realy works for KAT/S!!!!!!

Their is a company in Wichita that is in the Navigation business besides selling equipment for it in general for navigators it has computer programs. My desire has been to put into this computer, the TS 2068 such a problem solver as they advertize for the larger computers.

Each computer does the same as one would expect but, as one can also expect some computers have, quite a bit of program memory to use compared to ours. Some list as much as 256K.

Perhaps one of our many friends in many of our Users groups use, one or the following types:

Commodore 64
VIC-20
Apple IIe or II+ or IIC
IBM PC /XT/AT Ver2.2 Dos 2.0
Tandy Extended Color
Model 100 portable 24K
Apple Macintosh
NEC 6201 24K RAM
Some of these list ram and some, don't the most listed is 256 KB of RAM. If some one can help me, please write or call my listing. I have given it in the want ads.
